Statistical Question: _____

Collect Appropriate Data

Steps to take the Memory Test on the Census at School website.

Steps:

1. Got to the Census at School website: <https://ww2.amstat.org/CensusAtSchool/>
2. Choose the Student Section

Welcome to Census at School - United States

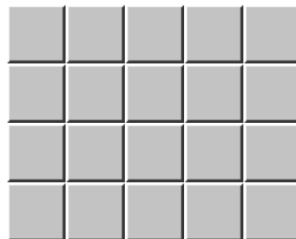

Census at School is an international classroom project that engages students in grades 4-12 in statistical problemsolving. Students complete a brief online survey, analyze their class census results, and compare their class with random samples of students in the United States and other countries. [More](#)

What's New?

3. Choose the Memory test from the menu on the right-hand side.

Test your memory. How quickly can you uncover all the pairs of pictures?
